Kawanoe Harbor Transport Co.,Ltd

Marine Transportation Business

We support the local paper industry through the handling of woodchips and coal imported from around the world.

Warehousing Business

We own 11 warehouses that give us an impressive 15,000 m² of storage space for raw materials headed to local paper manufacturers.

Container Business

We provide outstanding land transport for marine containers carrying import/export freight.

Lorry Business

We employ truck-mounted Unic cranes for fast and efficient delivery of chemicals to the local paper industry and construction materials to local building sites.

Long Distance Business

We deliver a wide range of cargo throughout Japan from our base in Shikoku.

Domestic Shipping Business

In 2015, we launched the cargo ship Yuseimaru for the transport of oil products all over Japan.

International Logistics Division

We provide total coordination of all processes for domestic and international transport, from customs clearance and storage to inspection and distribution.

グローバルビジネスパートナーへ

Since opening our doors in 1887 in response to the needs of the local paper industry, we have focused on coastal operations at Kawanoe Port.

Ever striving to meet and exceed customer expectations through prompt, safe and efficient transport operations, we have succeeded in growing into a comprehensive port transport business with a highly integrated land and sea transport system; and we are committed to enhancing our response to customer needs through the continued expansion and improvement of each aspect of our operation with an emphasis on our logistics business, which is expected to be the core industry of the next generation.

Moreover, while pursuing globalization, computerization and technological innovation, we recognize the important responsibility we have to preserve the environment for future generations by reducing our carbon footprint.

Our continuing goal is to shine as a good corporate citizen by actively contributing to the development of the community we serve through a wide range of activities designed to benefit both the local area as well as the wider world we inhabit.
